

> B-EP2 B-EP4

> OPTIONS / UPGRADES

Handy shoulder straps and carry cases complement the built-in belt clip for ultimate wearability. Spare batteries as well as single or 6-slot battery chargers are also available.

Choose to upgrade the serial interface model with a Bluetooth or wireless LAN interface kit, and there's a linerless kit to issue labels without backing paper, for waste-free labelling*.

Finally, for applications on the road there is a cigarette lighter charging adapter (12V input) for the B-EP2 and in the warehouse, there's a DC adapter (48V input) to charge either model in a forklift.

> USER BENEFITS

- Ultra-compact and contemporary rugged design
- Operator keypad with a backlit LCD information display
- Superior print speed, with 'peel and present' labelling
- Largest media capacity with quick and simple media loading
- Flexible connectivity including USB, Bluetooth and wireless LAN
- Swaps easily into existing systems

The Toshiba EP Series -
Delivering innovation, technology and reliability.

Portable Series

CHARACTERISTICS

	B-EP2DL	B-EP4DL
Technology	Direct thermal	
Dimensions (excluding projecting parts)	119(H) x 88(W) x 65(D)mm	145(H) x 150(W) x 75(D)mm
Weight	480g (approx.)	860g (approx.)
IP Rating	IP54 with optional case	
User Interface	Backlit LCD / Keypad / Beeper / LED	
Operation Temperature	RS232C model: -15°C to 50°C, Bluetooth model: -5°C to 50°C, Wireless LAN model: 0°C to 50°C (LCD operates at 0°C to 50°C)	
Battery	Lithium ion 7.4V, 2600mAh	Lithium ion 14.8V, 2600mAh
Memory	8MB ROM & 16MB RAM	

PRINT

Resolution	203dpi (8 dots/mm)	
Max. Print Speed	105mm / sec	
Printer Type	Label / Receipt	

MEDIA

Paper Width	2.28" / 58mm	4.53" / 115mm
Media Roll Size (OD)	2.36" / 60mm	2.68" / 68mm
Max. Label Length	39.3" / 997mm	
Coreless Media	✓	✓
Drop-in Media	✓	✓

MODELS

USB + IrDA + RS232C	B-EP2DL-GH20-QM-R	B-EP4DL-GH20-QM-R
USB + IrDA + Bluetooth	B-EP2DL-GH30-QM-R	B-EP4DL-GH30-QM-R
USB + IrDA + wireless LAN (WLAN)	B-EP2DL-GH40-QM-R	B-EP4DL-GH40-QM-R

OPTIONS

	Spare battery - shoulder strap - 1 & 6 slot chargers - upgrade interface kit (Bluetooth, wireless LAN) for GH20 model - IP54 rated carry case - linerless label kit - AC & DC adapters	
	Vehicle cigarette lighter 12V adapter	

SOFTWARE

Drivers	Windows® 2000 / XP / Vista	
Language mode	TPCL, LABEL, RECEIPT, ESC/POS, BCI (function)	
SDK for Windows® CE	✓	✓

Our best thermal printing innovations, wherever you are, right at your fingertips.

Compact and stylish, the cool black EP range of 2 and 4 inch portable thermal printers is the ultimate in wireless functionality and reliability on the move.

B-EP2 B-EP4

RUGGED ENDURANCE ON THE MOVE

We have put our big printer technology into the smallest possible package. Perfect for labelling on the shop floor, printing prescriptions on hospital wards, issuing tickets in the street or barcoding in the warehouse.

APPLICATIONS

- ▶ **Retail**
Price mark-down & shelf-edge labelling, queue busting, promotions
- ▶ **Warehousing & Logistics**
Shipping labels, invoices, parcel tracking, delivery notes
- ▶ **Hospitality**
Event & meal tickets, mobile POS
- ▶ **Healthcare**
Mobile pharmacy, patient IDs, document & lab sample tracking
- ▶ **Public Services**
Traffic wardens, police, facilities operatives & public transport (tickets, fines, utility billing, metre reading, etc.)
- ▶ **Field Support**
PAT testing, receipts for field sales & support charges

Backlit LCD user interface

Robust and rugged, withstands a 1.8m drop on to concrete (1.5m for B-EP4)

Wi-Fi certified (GH40 model)

Market-leading media capacity for fewer roll changes

LIGHTER, FASTER

We've always created the most compact machines on the market. Each one is so small and light (from 480g & 860g including battery) that you can wear or carry it and forget that it's there.

Get top quality printed images at top speeds. The EP range boasts a market-leading print speed of up to 4 inches per second (105mm/sec) and a high performance 32bit RISC CPU ensures lightning-fast processing. With 'peel & present' on demand, simply take a label and the next one is issued in a flash.

DURABLE & ROBUST

Portable printers can be required in various environments so it's natural to expect them to perform perfectly even in extreme conditions. In the real world, accidents can happen, so we developed rugged rubber corners, easily passing a 1.8m drop test on to concrete (1.5m for B-EP4).

We didn't stop there with the rubber, we used it on the external ports to protect them from any spills. Even strict IP54 enclosure standards against dust and water ingress are surpassed with the optional carry case.

SO SIMPLE TO USE

For user friendliness and very fast operator training times, there's nothing like the clear backlit LCD read-out on the larger Toshiba thermal printers. So we put it into the mobile range as well, displaying a label counter, battery level, wireless signal strength and error messages. There's audible alerts too, just in case.

LESS MEDIA CHANGES

Papers or labels dropped in with one hand? No problem. The large capacity we've designed means changing media much less often, three times less often than the B-SP series. Plus there's no cores required on the rolls, so minimal waste.

POWER OPTIONS

The high endurance lithium ion battery ensures many hours of operation. Swap it out for external recharging or simply charge in situ using an optional adaptor.

EASY NETWORKING

The EP range is Wi-Fi certified, making networking to all wireless or cabled systems a breeze. USB 2.0 and IrDA (infrared) are standard across the EP models. Simply choose between Bluetooth, wireless LAN and serial. The serial model can be upgraded to wireless or Bluetooth using the optional kits, subject to certification required in each country.

SWIFT INTEGRATION

With MS Windows® drivers (2000, XP, Vista) and configuration utilities as standard, there's also an SDK for Windows® CE 5.0 and Windows® Mobile 5.0, a unique "BCP Print for CE" Emulator for developing bespoke applications with ease.

The EP series speaks many programming languages and is designed to simply plug and play without any software changes, whether it's a Toshiba printer using TPCL or any make using BCI (Basic Command Interpreter).

Both units will handle inputs from other peripherals such as scales and scanners. Uniquely, they support ESC/POS language.

About LOGISCENTER

Grupo Logiscenter is the leading provider in Europe of automatic identification and data capture equipments. Our products include barcode printing and reading devices, mobile computing devices, wireless access points, identification cards, and consumables.

Reasons to work with us

Our customers come first. Our objective is not only selling our products but also holding a long-lasting relationship with our customers, based on the benefits and advantages we create for you and your company.

The best brands. We offer products from the best manufacturers worldwide.

Expert technical support team. Our support staff are experts in the products we sell. But not just the products, they can tell you the best solution for your particular problem or need.

Largest stock. We have a permanent stock of more than 12,000 products.

Same-day shipping. For all orders placed and confirmed before 16:00 on working days.

Best prices. With Logiscenter, you can be sure that you are paying a fair price for your products we will not overcharge you.

Easy returns. Damaged or defective products can be returned easily, for an exchange or reimbursement.
